## Minimize your risk and stay on top of compliance obligations with a powerful and simple online solution

▶ Private-sector employers who sponsor health and welfare plans -- whether they are large or small, self-funded or fully funded -- must wrestle with a maze of compliance requirements from ERISA and other laws, including recent health care reform legislation. Often, employers are unaware of all their obligations and are surprised when they are hit with penalties. **Compliance**dashboard helps employers of all sizes assess their compliance needs and monitor their progress with a powerful and simple online system. Let **Compliance**dashboard's relevant resources and tracking tools take the hassle and surprises out of your compliance duties.

Shared Wisdom. Powerful Results.®

Key Benefits

Versatile: Ideal for employers with little or no HR staff -- or for larger and multiple-site employers who need to coordinate compliance tasks among multiple people or across more than one location.

Information Aggregator: Employers often struggle with determining what laws affect their health and welfare plans and what they need to do to stay compliant. This resource provides relevant information in easy-to-understand terms, giving employers a trusted source that can save them time and reduce the hassle of compliance.

On-Time Execution: Compliancedashboard helps employers organize their tasks with a robust compliance calendar and email reminders that keep employers on top of their compliance duties.

Verification: Employers can rely on Compliancedashboard to monitor their progress and ensure tasks do not fall through the cracks. This tool keeps track of compliance jobs and sends automated reminders when a required task is past due.
